

Bird & Bird

Risk and Compliance Scanner

Turning risks into opportunities

One firm.
Your firm.

Every business, no matter how big or small, faces legal risks. *The difficulty is not to address these risks, but to identify them.*

Whether you ramp up for post-closing due-diligence, take on a new role in Management, Legal or Compliance, or want to improve existing processes, our **Risk and Compliance Scanner (RCS)** will help you better understand the legal challenges faced by your organisation and allocate budgets to where they are most needed.

The RCS is your structured guide to identifying and mitigating the legal and compliance risks lurking in your organisation. Get in touch and learn more about how we can help turn risks into opportunities. Key features include:

Modular database of close to 900 questions covering all major risk areas, including:

- Antitrust;
- Anticorruption & compliance;
- Data protection & safety;
- Corporate & commercial contracts;
- Economic sanctions & export control;
- Employment, health & safety;
- Environmental;
- IP (TCA & trade secrets; patents);
- Product safety & compliance;
- Supply chain;
- Tax etc.

RCS at a glance

14 risk areas from “A” as in “Antitrust” to “T” as in “Tax”

Database of close to 900 questions in total

Structured reporting, including:

- Final reports (for legal staff)
- Visual reports (for management)
- Impact assessment matrix
- Risk mitigation plan etc.

Secure online integration

Available in all jurisdictions where Bird & Bird has an office, see www.twobirds.com for details

Scalable

In breadth and depth to the needs of your project or organisation

Risk mitigation plan

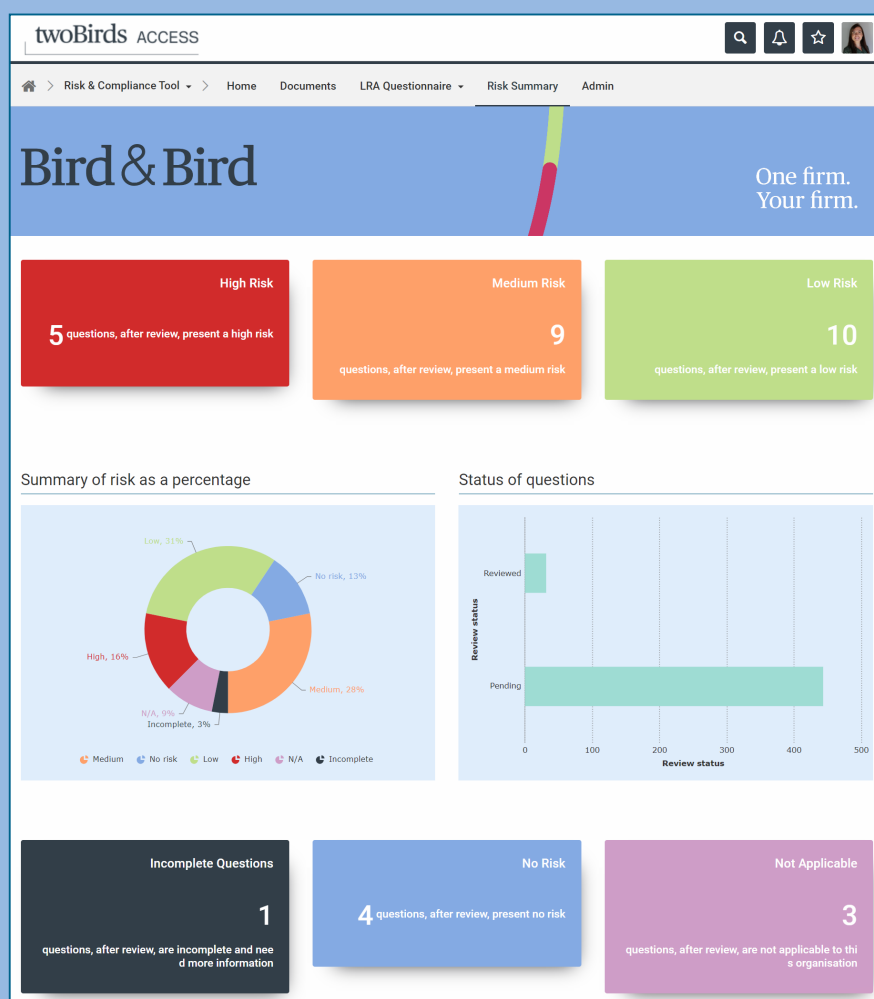

Prioritising the risks identified along the three parameters that matter most to your business:

- Impact on business;
- Likelihood that risk will occur; and
- Investment required to remove/reduce risk.

Full online integration into Access

Full online integration into Access, in a *secure, privileged environment*. Our client solution lab features e.g. automatic alerts, status tracking and updates, etc. and offers

risk owners the freedom to provide their answers in a secure and legally privileged space online, anytime, anywhere.
