

Bird & Bird & with you at every stage of the Life Cycle

How we can help

Our intellectual property experts structure intellectual property protection strategies and assess the impact of third party rights on freedom to operate.

We advise on all types of funding and partnering arrangements, using our corporate and intellectual property expertise.

We advise on all regulatory and contractual issues arising in connection with clinical trials.

Our regulatory experts are able to guide clients through the process of securing marketing authorisations and any appeals from regulatory decisions.

We advise on a full range of licensing, distribution, marketing and joint venture agreements.

Our internationally renowned team provide support in intellectual property, regulatory and contractual disputes relating to the full range of life cycle issues.

Our corporate team can assist you in negotiating and completing all forms of exits, from selling or merging your company to listing it on the stock exchange.
