

# There are law firms and there's **Bird & Bird**

## *Trainee Programme - Spring 2018*

Bird & Bird is a truly international law firm with a rare and invaluable grasp of strategic commercial issues. We have over 1200 lawyers in 28 offices across Europe, the Middle East and Asia-Pacific, and a strong footprint in the Nordic region. As an employer, we are proud of our professional, efficient and friendly working environment and we are dedicated to upholding this atmosphere.

If you are prepared to work in one of the leading business law firms in Finland, with an international approach, and you wish to gain first-class professional skills, we are happy to introduce you to our Trainee programme.

The Trainee programme consists of four intensive months during which you will work as a fulltime Trainee. The purpose of the programme is to give you an overview of Bird & Bird as well as offer you an opportunity

to try your 'birdie' wings in practicing commercial business law. You will work for various practice groups assisting the firm's lawyers in diverse and challenging assignments. Your duties will include similar work as our newly graduated lawyers do, for example, drafting legal documentation and collecting information regarding a wide variety of issues. During the traineeship you will be supported by your Trainee colleagues and an assigned personal tutor.

If you are in the final stages of your studies, highly motivated, eager to learn and have a good command of Finnish and English, you might be our new birdie Trainee.

Our spring trainee periods start on:

- 1 February 2018
- 3 April 2018
- 2 May 2018
- 1 June 2018

Please send your application, CV and transcript of studies in one document (preferably as PDF) to [trainee@twobirds.com](mailto:trainee@twobirds.com) by 24 September 2017 at the latest. Please mention in your application if some of the periods do not suit you. Please give us also an estimate on the number of your credit units in the beginning of February 2018.
